

I have attached the only building layout we have. Unfortunately it does not have dimensions.

I have attached the information on the roof along with warranty.

HVAC units:

Unit that goes to front part of building on Highland side – installed April 2012 by Ada Heating and Air.

Unit that goes to back part of building that goes from conference room to back door – installed June 2012 by Ada Heating and Air.

Unit that goes to side part of building that has entrance from Lane Ave. – installed 2015 by McCoy's Heating and Air.

If you need any additional information, please let me know and I will do my best to find it. ☐ ☐
