

ADM Logistics

We have the ability to arrange all of customer's shipping needs, including special projects.

We leverage ADM's fleet and transportation partners to offer competitive rates. \$5.5B annual freight investment

Full Truck Load (FTL)

- Fill an entire truck with solely your customers product.
- Safest and most direct way to transport.
- Refrigerated or dry goods.
- Most cost effective for shipments of ≥ 8 pallets and / or over 10K lbs.

Liquid Bulk

- Transport large volumes of liquid / dry products.
- Access to liquid, food grade and pneumatic trailers.
- Common liquid products include cocoa butter, glycerin or soybean oil.
- Common dry product is flour.

Flatbed

- Open trailer (no sides). Tarps protect product.
- Various sizes exist to accommodate oversize and large products.
- Usually used for lumber, steel and large agriculture or construction equipment.

Rail

- Can transport liquid or dry goods, packaged or bulk.
- ADM owns 28,000 rail cars.
- Offer excess rail cars for customer lease.
- Provide management and oversight of customer rail projects.

Less Than Truckload (LTL)

- Shared trailer space.
- Best for freight $\leq 15K$ lbs. and / or 8 pallets (16 stacked).
- Can provide cost-savings, but transit times are estimated and may increase.

Hazmat Shipping

- Transport hazardous materials including explosives, gases, flammable and combustible liquids, solids, poisons, radioactive materials and corrosive agents.
- Can transport one pallet to a full truckload through any transportation mode FTL, LTL, liquid bulk.
- Domestic and international available.

Domestic Drayage / International Shipping

- Movement of shipping container to/from railyard or port.
- Pick up & move empty/loaded container to shipping location for loading / unloading & move back to the rail/port to transport by railroad or ocean vessel.
- Offer International shipments by ocean vessel or airplane from one country to another.

Storage

- Safely and securely storing product for future use.
- Short-term or long-term options.
- Warehouse or trailer.
- Free up customer space.

Transportation and Logistics change constantly. Our experts guide customers every step of the process and offer recommendations for the best type of transportation options for your product, delivery timeline and budget needs. Our team consistently provides real-time assessment and updates to identify opportunities and troubleshoot challenges along the way, providing a positive customer experience.
