

Respirator Cartridges

Comprehensive Inventory of MSA Safety Respirator Cartridges

Asset ID 24035-254: MSA Comfo GME-Ammonia Respirator Cartridges (MM 18238412)

For Sale: 413 Boxes of 10 MSA Comfo GME-Ammonia Respirator Cartridges

This listing is for a bulk quantity of MSA Safety Comfo® GME-Ammonia respirator cartridges, designed for use in air-purifying respirators. These cartridges are ideal for industrial environments where protection against a variety of gases is required.

Product Overview

The MSA Comfo GME-Ammonia is a multi-gas cartridge that provides protection against a wide range of contaminants, including ammonia and methylamine. These cartridges are compatible with MSA's Comfo series of twin-cartridge respirators and feature a threaded connection for easy installation. They can be used with N95 or R95 pre-filters for added particulate protection.

Key Specifications

Specification	Value
Manufacturer	MSA Safety
Part Number	492790
MM Number	18238412
Type	GME-Ammonia (Multi-Gas)
Application	Air Purifying Respirator
Packaging	10 cartridges per box
Quantity	413 boxes
Approvals	NIOSH Approved

Dimensions & Weight (per cartridge)

Dimension	Value
Weight	0.15 lb

Protection Profile

These cartridges are NIOSH-approved for protection against:

- Organic Vapors
- Sulfur Dioxide
- Chlorine
- Hydrogen Chloride
- Chlorine Dioxide
- Hydrogen Sulfide (escape only)
- Ammonia
- Methylamine
- Formaldehyde
- Hydrogen Fluoride
