Operator "Comfort Zone" has fingertip controls and Clear-View™ of critical sweep areas

Large 80 gal (303 L) polyethylene solution tank allows maximum scrubbing time

Large 80 gal (303 L) polyethylene recovery tank has pinch control drain hose

The 9.2 ft³ hopper hydraulically lifts up to 550 lb (249 kg) to 60 in (152 cm), accessible to standard dumpsters. Safety prop-rod engaged from operator compartment

Excellent maintenance access to engine compartment

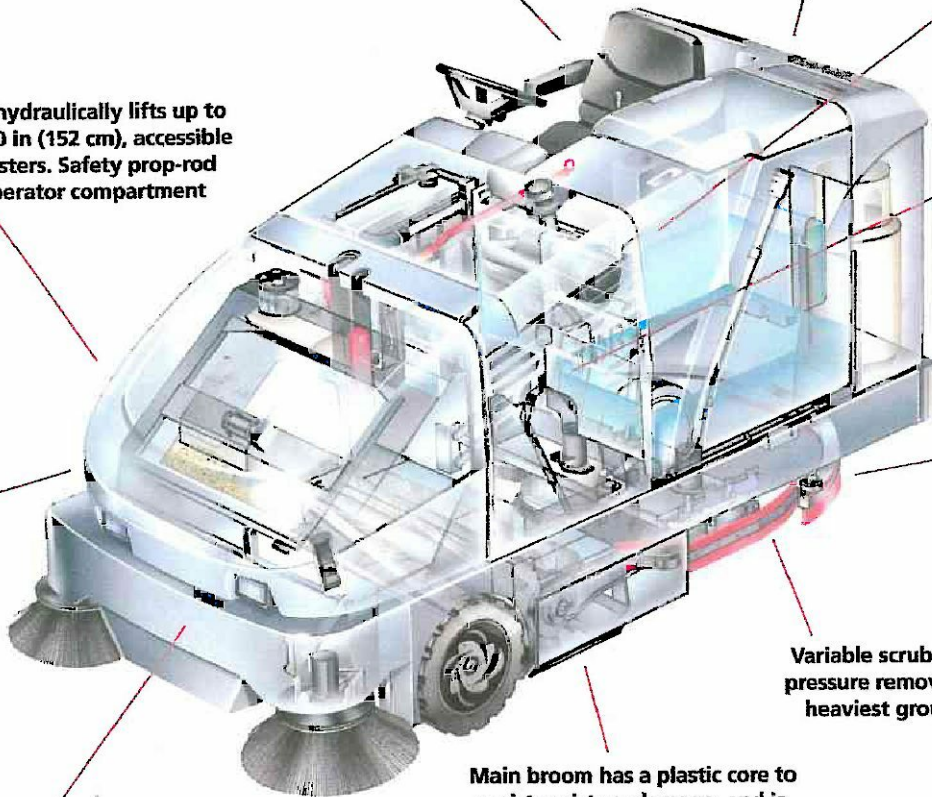

Active dust control stays active even while hopper is raised

Squeegee design picks up on uneven floors and leaves floor dry, even through turns

Variable scrub deck down pressure removes even the heaviest ground-in soil

Main broom has a plastic core to resist moisture damage, and is reversible for more even wear

Built for industrial use with heavy gauge, reinforced steel frame and welded wrap-around bumpers

The ergonomic Clear-View™ design provides the operator with an unobstructed view of critical sweep zones

Aggressive scrub system removes ground-in dirt, while the squeegee leaves floors dry. Combined, you get complete cleaning in a single pass

All major systems of the Captor® are readily accessible for easy inspection, cleaning and maintenance. Common maintenance and inspection operations can be completed without tools

Captor® AXP™ allows control of detergent usage and the ability to use your choice of detergent

The tip-out recovery tank makes equipment clean-up safe and simple and helps keep your recovery tank fresh
