Sony SH800

Sony is proud to present cellular research laboratories with its first instrument, the Sony Cell Sorter SH800. Using expertise from decades of developing consumer electronics products, the SH800 is a compact, affordable and easy to use cell sorter. The SH800 is perfect for the individual laboratory or core facility looking for an easy to use system for routine applications.

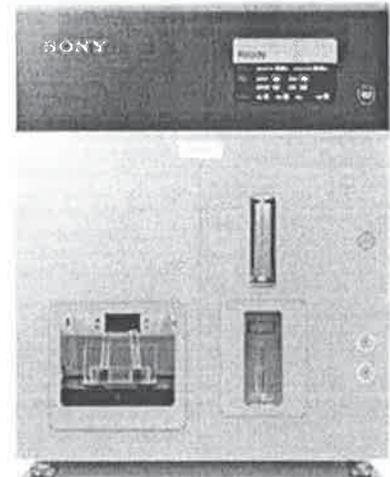

Ease of Use: The SH800 is designed to be an instrument that is easy to use for everyone, including those with no sorting experience. With automated alignment, drop delay and side stream setup, the SH800 is truly a new breed of cell sorter. Users simply scan the QR Code® associated with the sorting chip to automatically provide the system with nozzle size and optimal settings for stable reliable performance.

Flexible: Contained within the small frame of the SH800 is an extremely flexible design to accommodate a wide range of needs. The integrated laser engine houses up to 4 lasers, providing excitation lines of 405 nm, 488 nm, 561 nm and 638 nm, which are combined and delivered through a single fiber. 6 freeform PMTs allow for the detection of fluorescence signals from any laser based on filter selection.

SVC-SH800-GP	Service Agreement-SH800 GP 1yr	5.00	USD 20,800.00	USD 83,200.00

Total Price

USD 327,352.50

Special Note:

Discount on this quote will expire on March 30th, 2015. After that date the 5th extra year of service will not be free and the instrument discount will be subject to change.

Freight cost, installation, and training are included in the price quote and will be at no additional charge to the customer.

Customer is responsible for sale taxes at 9% on the quoted goods.

$9\% \times 244,152.50 = 21,973.73$.

Grand total cost to customer: \$349,326.23

Terms

The terms and conditions specified in this proposal and on our website at http://www.sonybiotechnology.com/terms_conditions_inst.php govern the purchase of the system and take precedence over those contained in any other purchasing document.

Payments terms

Payment due net 30-days from date of delivery. Any applicable sales or use taxes are the responsibility of the customer and may be added to
