Silver Spot: \$ 32.19/per troy oz

Title: 15 Gold Nuggets Likely from River/Creek Mining – Amazing Group!

Brief Description:

Fifteen (15) gold nuggets from a North Carolina safe deposit box. All appear to be naturally formed and harvested from rivers and streams and not man-made. (Also note additional crystallized gold nugget lot as well). Several appear to have small quartz “pebbles” imbedded as well. Very unusual to find this many in one collection and these trade for premiums over the gold value.

Actual weight: 2.99 troy ounces.

Appraised Fair Market Value: \$ 12,000
