Silver Spot: \$ 32.19/per troy oz

**Title: 14 Crystallized Gold Nuggets– Amazing Group!**

**Brief Description:**

Fourteen (14) crystallized gold nuggets from a North Carolina safe deposit box. All appear to be naturally formed and likely harvested from mines and not man-made. (Also note additional second gold nugget lot as well). Nine (9) nuggets have large-minor quartz “pebbles” or attached stone. Five (5) have no discernable

quartz “pebbles” based on examination. Very unusual to find this many in one collection and these trade for premiums over the gold value.

**Actual weight:**

Eleven (11) smaller nuggets with either minor or no visible quartz weigh .51 troy ounces.

Three (3) larger nuggets with attached stone weigh .52 troy ounces.

Appraised Fair Market Value: \$ 3,000
