

2018

**Honda Accord Sedan**

**VIN: 1HGCV1F37JA046864**

Recall data refreshed on Jul 09,2025

**2 Unrepaired Recalls**

associated with this VIN

**Dec 18,2023**

**Manufacturer Recall Number** YGK

**NHTSA Recall Number** 23V-858

**Recall Status** Recall Incomplete

**Summary**

American Honda Motor Co., Inc. (Honda) is recalling certain 2018-2022 model year Accord 1.5L vehicles. The fuel pump impeller was improperly moulded, resulting in low density impellers. Over time, the low-density impeller can deform and interfere with the fuel pump body, rendering the fuel pump inoperative.

**Safety Risk**

If the fuel pump module is inoperative, the engine may not start or can stall while driving, increasing the risk of a crash or injury.

**Remedy**

Registered owners of all affected vehicles will be contacted by mail and asked to take their vehicle to an authorized Honda dealer. The dealer will replace the fuel pump module with an improved part. Owners who have paid to have these repairs completed at their own expense may be eligible for reimbursement, in accord with the recall reimbursement plan on file with NHTSA. For additional questions, owners may contact American Honda's Customer Support & Campaign Center at 1-888-234-2138.

**if the manufacturer has failed or is unable to remedy this safety recall for your vehicle in a timely manner,**

please contact the NHTSA Vehicle Safety Hotline at: **1-888-327-4236** or TTY: **1-888-275-9171** or file an online complaint with NHTSA.

**Dec 10,2020**

**Manufacturer Recall Number** X95

**NHTSA Recall Number** 20V-771

**Recall Status** Recall Incomplete

**Summary**

American Honda Motor Co., Inc. (Honda) is recalling certain 2018-2020 model year Accord Sedan, 2018-2020 model year Accord Hybrid, and 2019-2020 model year Insight vehicles. A software error may cause intermittent or continuous disruptions in communication between the Body Control Module (BCM) and other components, resulting in illumination of several warning indicators and malfunction of one or more electronic components. As such, these vehicles fail to conform to the requirements of Federal Motor Vehicle Safety Standard No. 103, "Windshield Defrosting and Defogging Systems," No. 104, "Windshield Wiping and Washing Systems," No. 108, "Lamps, Reflective Devices and Associated Equipment," No. 111, "Rear Visibility," No. 114, "Theft Protection," No. 118, "Power-operated Window, Partition and Roof Panel Systems," and No. 305, "Electric-powered Vehicles: Electrolyte Spillage and Electrical Shock Protection."

### **Safety Risk**

Various system malfunctions such as inoperative windshield wipers, defroster, rearview camera, or exterior lighting can increase the risk of a crash.

### **Remedy**

Please call any authorized Honda dealer and make an appointment to have your vehicle repaired. The dealer will update the BCM software program for free. For additional questions or to get help locating a dealer, owners may contact American Honda Customer Support and Campaign Center at 1-888-234-2138.

**If the manufacturer has failed or is unable to remedy this safety recall for your vehicle in a timely manner,**

please contact the NHTSA Vehicle Safety Hotline at: **1-888-327-4236** or TTY: **1-888-275-9171** or file an online complaint with NHTSA.

### **Where's my VIN?**

Every vehicle has a unique **vehicle identification number**, often referred to as a VIN. Look on the lower left of your car's windshield for your 17-character VIN. Your VIN is also located on your car's registration card, and it may be shown on your insurance card.

### **What information will display in the search results?**

- When searching by license plate or VIN, you'll learn if a specific vehicle needs to be repaired as part of a recall.
- When searching by a vehicle's year, make and model, or for car seats, tires or equipment, you'll get general results for recalls, investigations, complaints and manufacturer communications.

### **What will the license plate and VIN search show?**

- An unrepaired recall for a vehicle from [certain manufacturers](#).
- If the vehicle has no unrepaired recalls, you will see the message: "0 unrepaired recalls associated with this VIN."

### **What won't the license plate and VIN search show?**

- A safety recall that has already been repaired.
- Some recently announced safety recalls for which not all VINs have been identified. VINs are added continuously so please check regularly.

- Safety recalls that are more than 15 years old (except where a manufacturer offers more coverage).
- Safety recalls conducted by small vehicle manufacturers, including some ultra-luxury brands and specialty applications.
- Manufacturer customer service or other non-safety recall campaigns.
- A recall involving an international vehicle.

**Why is the license plate search result showing a different vehicle?**

License plate information is generated from state department of motor vehicles. If the search result shows a vehicle you previously owned, rather than your new vehicle with the same license plate, [contact your state DMV](#) to request your vehicle information be updated. In the meantime, you can search for recalls using your vehicle's VIN.

**Other search options, including by NHTSA ID**

You can also search for recalls and safety issues information by [NHTSA ID](#) and [complaints by keyword](#).
