

Waterloo Waste Management Centre Material Recycling Centre (MRC) Equipment Deposition

Equipment Package: Negative Transfer Conveyor C-15 - PET Transfer Conveyor C-18 - HDPE Transfer Conveyor C-20

Negative Transfer Conveyor C-15 (Slider Bed Conveyor 24" wide x 22'-3 ½" long):

Equipment Number: C-15

Serial Number: CSR3-183L

Line Number: Containers

Model: Slider Bed

Size / Dimensions: 24" wide x 22'-3 ½" long

Power: 1 HP

Power Supply: 575/3/80

Speed: 120 RPM

Age: Purchased in 2009

Date Removed from Service: March 2, 2024

Condition when removed from Service: Working, fully operational.

Description: MACHINEX slider and idler conveyors are built for high-volume throughput with a maximum efficiency. At the MRC the negative transfer conveyor is used to transfer material from the optical sorter to the slider roller conveyor located along the negative sort line. Refer to Section 3.5 of the MachineX service manual for additional details.

Damage: Exterior - Scratches, dents, dings & rust are present

Maintenance Schedule (while in service): Monthly, and as required.
