This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 10/21/25 at 11:51:04 AM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Accident / Damage History

Not all accidents / issues are reported to CARFAX

Event 1

05/18/2017

Accident reported

- It hit a tree
- It hit a post
- It hit a light pole
- Estimated damage exceeds \$500
- Vehicle towed
- Front airbag deployed

Event 2

07/31/2019

Accident reported: minor damage

- Vehicle involved in a rear-end collision with another motor vehicle
- Airbags did not deploy

04/11/2016

General Motors

Manufacturer Safety recall issued

- NHTSA #16V209
- Transport Canada# 16153
- Recall #N150822 SEATBELT LAP ANCHOR TENSIONER CABLE
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

⊖ **Learn more about this recall**

Description: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2014-2015 model year Chevrolet Silverado 1500 and GMC Sierra 1500 vehicles. The flexible steel cable that connects the driver's seat belt to the outboard side of the seat (the "tensioner cable") can fatigue and separate over time as a result of occupant movement into the driver's seat.

In a crash, a fatigued tensioner cable could break, reducing the effectiveness of the vehicle's seat belts increasing the risk of injury to the driver.

Remedy: For used and customer vehicles, dealers will enlarge the side shield opening, install a pusher bracket on the tensioner, and if necessary, replace the tensioner assembly free of charge.

09/08/2016 General Motors

Manufacturer Safety recall issued

- NHTSA #16V651

- Recall #2016007 FRONTAL AIRBAG
AND PRETENSIONER NON DEPLOY

- Status: Remedy Available

Locate an authorized General Motors
dealer to obtain more information about
this recall. **Learn more about this recall**

Description: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2014-2017 model year Chevrolet Silverado LD, GMC Sierra LD, Buick Encore, Chevrolet Trax, Chevrolet Caprice Police, and Chevrolet Corvette vehicles, 2014-2016 model year Buick Lacrosse, Chevrolet Spark EV, and Chevrolet SS vehicles and 2015-2017 model year Chevrolet Silverado HD, GMC Sierra HD, GMC Yukon, GMC Yukon XL, Cadillac Escalade Cadillac Escalade ESV, Chevrolet Suburban, and Chevrolet Tahoe vehicles. The sensing and diagnostic module (SDM) in these vehicles, which controls airbag and pretensioner deployment, contains a software defect which may prevent the deployment of frontal airbags and pretensioners in certain rare circumstances. If the frontal airbags and seatbelt pretensioners do not deploy when required, there is an increased risk of injury to occupants in a crash.

If the frontal airbags and seatbelt pretensioners do not deploy when required, there is an increased risk of injury to occupants in a crash.

Remedy: Reprogram the SDM with new software that eliminates this defect. In vehicles with any previous deployment events recorded in the SDM, dealers will replace the existing SDM with a new SDM prior to programming and setup. Note: Before replacing the SDM, any airbag related Diagnostic Trouble Codes should be identified, diagnosed, and corrected prior to SDM replacement. Faulty SIR components in need of replacement are unrelated to this safety recall and are not covered under the terms of this safety recall.

General Motors

Manufacturer Safety recall issued

- NHTSA #18V586
- Transport Canada# 2018482
- Recall #N182156820 EPS LOSS OF STEERING ASSIST
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

⊖ **Learn more about this recall**

Description: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2015 model year Chevrolet Silverado LD, Suburban, and Tahoe vehicles; GMC Sierra LD and Yukon vehicles; Cadillac Escalade vehicles. These vehicles may experience a temporary loss of EPS assist followed by a sudden return of EPS assist, particularly during low-speed turning maneuvers. The loss and sudden return of EPS assist typically happens within a 1 second period and is caused by an electrical/software issue.

If EPS assist is lost and suddenly returned, the driver could have difficulty steering the vehicle, especially at low speeds, increasing the risk of a crash.

Remedy: Dealers will perform a reflash of the EPS module software free of charge.

- Recall #N192268490 INCREASED BRAKE PEDAL EFFORT
- Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

⊖ **Learn more about this recall**

Description: General Motors has decided that a defect which relates to motor vehicle safety exists in certain 2014-2018 model year Cadillac Escalade, Chevrolet Silverado, Chevrolet Suburban, Chevrolet Tahoe, GMC Sierra, and GMC Yukon vehicles. In some circumstances, these vehicle may have a condition in which the engine-mounted mechanical vacuum pump output may decrease over time, decreasing the amount of vacuum/power brake assist.

Remedy: Dealers will reprogram the electronic brake control module with a new calibration that will improve how the system utilizes the hydraulic brake boost assist function when vacuum assist is depleted.

Have Questions? Please visit our Help Center at www.carfax.com.

**Glossary****Accident Indicator**

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 10/21/25 at 11:51:04 AM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Airbag Deployment

Occurs when the driver, passenger or side airbag has been used or deployed during a crash or other incident. If an airbag has been deployed, it must be replaced by a qualified technician. Have this car inspected by a mechanic prior to purchase.

Commercial

Vehicle was registered for business purposes.

Damage Severity

Damage events result in one of the following severity levels:

- **Minor:** Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- **Moderate:** Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.
- **Severe:** Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 10/21/25 at 11:51:04 AM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Airbag Deployment

Occurs when the driver, passenger or side airbag has been used or deployed during a crash or other incident. If an airbag has been deployed, it must be replaced by a qualified technician. Have this car inspected by a mechanic prior to purchase.

Commercial

Vehicle was registered for business purposes.

Damage Severity

Damage events result in one of the following severity levels:

- Minor: Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- Moderate: Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.
- Severe: Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

New Owner Reported

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
