APPRAISER'S COMMENTS
Inspected claimants vehicle at their residence, claimant was present.  Damages observed were to the front end, bumper, headlights, Hood, and right fender.  Damage estimate of \$10,342.20, CCC value for \$13,206.00, and pro quote of \$2,837.33.  With the possibility of additional items to be found does not put this vehicle as a good repair option and should be deemed a total loss, in my opinion.  Thanks for the assignment.
