Starting bid \$1,000.

2003 Ford Ranger EXTENDED CAB PICKUP 2-DR, 4.0L V6 SOHC 12V. This vehicle has 98,547 miles and is a 4 X 2. The tires are newer as depicted in photos. The interior is dirty. The driver side seat has a tear in it. The exterior has scratches and paint has worn off in several areas. There appears to be rust on the top of the cab. The vehicle still retains the catalytic converter. There are no engine, airbag, or any other warning lights displayed on the dash at time of listing.

The City was operating the vehicle until recently but has decided to replace the vehicle. The truck is still running as heard in video and appears to drive fine. It starts right up without a jump and sounds good. It passed smog in 2025 and had oil changed at 96,887 miles.

There is a recommendation to replace the AC compressor which is causing the air conditioner to blow hot. There is also a misfire in cylinder four and a failure in the cylinder four head gasket. The vehicle was still operational at the time it was last used, however, the check engine light was going on intermittently.

The bed cover also works and keys are included.

The city logos will be removed without damaging the paint and further.

The asset can be viewed at the Hesperia Public Works yard at 17282 Mojave Street, Hesperia, CA 92345. It is strongly recommended that prospective buyers view the vehicle by contact Robert Worby at 760-947-1829.

Working condition of parts is unknown. Items sold "AS IS"/"WHERE IS" with no warranties expressed or implied. THERE IS NO FURTHER INFORMATION AVAILABLE FOR THIS ITEM. POTENTIAL BIDDERS ARE STRONGLY ENCOURAGED TO INSPECT PRIOR TO BIDDING
