## In the Box

### iPhone SE

#### USB-C to Lightning Cable

#### Documentation

As part of our efforts to reach [our environmental goals](#), iPhone SE does not include a power adapter or EarPods. Included in the box is a USB-C to Lightning cable that supports fast charging and is compatible with USB-C power adapters and computer ports.

We encourage you to re-use your current USB-A to Lightning cables, power adapters, and headphones which are compatible with this iPhone. But if you need any new Apple power adapters or headphones, they are available for purchase.

## iPhone and the Environment

iPhone SE is designed with the following features to reduce its environmental impact:<sup>16</sup>

[See the iPhone SE Product Environmental Report \(PDF\)](#)

### Made with better materials

100% recycled tungsten in the Taptic Engine, representing 100% of the tungsten in the device<sup>17</sup>

100% recycled rare earth elements in the Taptic Engine and audio magnets, representing 91% of the rare earth elements in the device

100% recycled tin in the solder of the main logic board

35% or more recycled plastic in multiple components

### Energy efficient

Meets U.S. Department of Energy requirements for battery charger systems<sup>18</sup>

### Smarter chemistry<sup>19</sup>

Arsenic-free display glass

Mercury-, BFR-, PVC-, and beryllium-free

### Green manufacturing

Apple's Zero Waste Program helps suppliers eliminate waste sent to landfill

All final assembly supplier sites are transitioning to 100% renewable energy for Apple production

### Responsible packaging

100% of virgin wood fiber comes from responsibly managed forests

90% or more fiber-based packaging

### Apple and the Environment

We're committed to making our products without taking from the earth, and to become carbon neutral across our entire business, including products, by 2030.

[See Apple's commitment](#)

\*To identify your iPhone model number, see [support.apple.com/kb/HT3939](https://support.apple.com/kb/HT3939). For details on 5G and LTE support, contact your carrier and see [apple.com/iphone/cellular](https://apple.com/iphone/cellular). Cellular technology support is based on iPhone model number and configuration for either CDMA or GSM networks.

1. Available space is less and varies due to many factors. A standard configuration uses approximately 12GB to 17GB of space, including iOS 18 with its latest features and Apple apps that can be deleted. Apple apps that can be deleted use about 4.5GB of space, and you can download them back from the App Store. Storage capacity subject to change based on software version, settings, and iPhone model.
2. Size and weight vary by configuration and manufacturing process.
3. iPhone SE is splash, water, and dust resistant and was tested under controlled laboratory conditions with a rating of IP67 under IEC standard 60529 (maximum depth of 1 meter up to 30 minutes). Splash, water, and dust resistance are not permanent conditions. Resistance might decrease as a result of normal wear. Do not attempt to charge a wet iPhone; refer to the user guide for cleaning and drying instructions. Liquid damage not covered under warranty.
4. Apple Cash services are provided by Green Dot Bank, Member FDIC. Apple Payments Services LLC, a subsidiary of Apple Inc., is a service provider of Green Dot Bank for Apple Cash accounts. Neither Apple Inc. nor Apple Payments Services LLC is a bank. Learn more about the [Terms and Conditions](#). Only available in the U.S. on eligible devices. To send and receive money with an Apple Cash account, you must be 18 and a U.S. resident. If you're under 18, your family organizer can set up Apple Cash for you as part of their Apple Cash Family account, but you may not be able to access features that require a supported payment card. Security checks may require more time to make funds available. Apple Cash Family accounts can only send or receive up to \$2000 within a rolling seven-day period. Tap to Cash transactions can only be used to send or receive up to \$2000 within a rolling seven-day period.

Other limits apply, see [Terms and Conditions](#) for details. To access and use all Apple Cash features, you must have an eligible device with Wallet that has the latest version of iOS.

5. Available only in select cities and transit systems. Requires eligible device and OS version. [See here for details.](#)
6. Data plan required. 5G, LTE, VoLTE, and Wi-Fi calling are available in select markets and through select carriers. Speeds are based on theoretical throughput and vary based on site conditions and carrier. For details on 5G and LTE support, contact your carrier and see [apple.com/iphone/cellular](#).
7. FaceTime calling requires a FaceTime-enabled device for the caller and recipient and a Wi-Fi connection. Availability over a cellular network depends on carrier policies; data charges may apply.
8. Standard dynamic range video content only.
9. Siri may not be available in all languages or in all areas, and features may vary by area. Internet access required. Cellular data charges may apply.
10. All battery claims depend on network configuration and many other factors; actual results will vary. Battery has limited recharge cycles and may eventually need to be replaced. Battery life and charge cycles vary by use and settings. See [apple.com/batteries](#) and [apple.com/iphone/battery.html](#) for more information.
11. Testing conducted by Apple in January 2022 using preproduction iPhone SE (3rd generation) and software and accessory Apple USB-C Power Adapter (20W Model A2305). Fast-charge testing conducted with drained iPhone units. Charge time varies with settings and environmental factors; actual results will vary.
12. Qi wireless chargers sold separately.
13. Use of eSIM requires a wireless service plan (which may include restrictions on switching service providers and roaming, even after contract expiration). Not all carriers support eSIM. Use of eSIM in iPhone may be disabled when purchased from some carriers. See your carrier for details. To learn more, visit [apple.com/esim](#).
14. Wireless broadband recommended; fees may apply.
15. In China mainland, you can use Apple Pay on the web in Safari only on compatible iPhone and iPad models using iOS 11.2 or later.
16. Data accurate as of product launch.
17. Excludes trace amount of tungsten found outside of the Taptic Engine and accounting for less than 0.4% of the total found in the device.
18. Efficiency performance is based on the U.S. Department of Energy [Federal Energy Conservation Standards for Battery Chargers](#).
19. Apple defines its restrictions on harmful substances, including definitions for what Apple considers to be “free of,” in the [Apple Regulated Substances Specification](#). Every Apple product is free of PVC and phthalates with the exception of AC power cords in India, Thailand (for two-prong AC power cords), and South Korea, where we continue to seek government approval for our PVC and phthalates replacement.

Some features may not be available for all countries or all areas. [View complete list.](#)
